The test results show that the presented product is in compliance with the specified requirements.

This test report is based on the report 028-713045122-100 from 03.06.2015

Product Service

4 Remark

Back side reflector was not considered for any traffic requirement test. Approval of traffic requirements act was not provided by customer.

The user manual has been examined according to the minimum requirements described in the product standard. The manufacturer is responsible for the accuracy of further particulars as well as of the composition and layout

4.1 Remarks to Factory

The assembly of the product has to comply with the documentation. Before the implementation of safety relevant modifications to the product into the ongoing production the product must be retested for assessment. The results must be implemented to the documentation and if necessary the certificate must be updated.
